SKILLS

Python, Java, SQL, T-SQL,
Stored Procedures, SQL
Server, C#, Redis, Vue.js, REST
APIs, Firebase Streamlit,,
pandas, NumPy, Git, VS
Code/JetBrains.

LANGUAGES

English — Fluent

Albanian — Native

CERTIFICATIONS

NVIDIA: Fundamentals of
Accelerated Data Science
(2024)

EXTRACURRICULAR &

LEADERSHIP

- President, Keystone Rotaract Club (2021-2024)
- Debrecen 2024 Hackathon
- Google Developer Student Club (2022-2025)

REFERENCES

Available upon request.

EXPERIENCE

Software Engineering Intern – Asseco SEE (ASEE), Prishtina, Kosovo

Aug. 2025 – Oct. 2025

- Built and optimized T-SQL stored procedures for loan repayment, interest, and fee modules.
- Wrote automated SQL tests and validation scripts to catch errors before release.
- Collaborated on API-driven data pipelines and schema design.
- Built internal C# WinForms tools connected to SQL Server for loan and interest modules

PROJECTS

Audiolytics – Music Listening Behavior Dashboard

Jul. 2025 – Ongoing · github.com/gegedobruna/audiolytics

- Interactive Streamlit app that turns listening-history data into rich insights: track daily minutes, genres over time, mood & energy trends, discovery habits, device mix, streaks, artist comebacks.
- Uses Altair for visualizations; data caching & transformation optimized for performance.
- Implements ML forecasting (7-day platform-share predictions) with confidence intervals, using statsmodels (SARIMAX/ETS) baselines.

Deckmoor – MTG Commander Deckbuilder

Apr. 2025 · github.com/gegedobruna/Deckmoor

- Web app for building and playtesting Commander-format MTG decks; real-time card search, validation, and deck import/export
- Built with Vue (frontend), Firebase (backend & real-time data), and Scryfall API for card data using FastAPI for REST API integration.
- Modular component structure to support filter logic, deck legality rules, and visual rarity cues (color/foil icons).

EDUCATION

B.S. in Computer Science –University of Debrecen, Hungary

Sep. 2022 – Jul. 2025

Key coursework: Data Structures, Database Management, Algorithms & Analysis, OOP, Web Development, Web Technologies, AI Fundamentals, Software Engineering, SQL & NoSQL, Blockchain Technologies, Cybersecurity.
